SHIVAM PALIWAL

Solutions Engineer | Java • Spring Boot • REST APIs • Angular
+91-7985015277 | paliwalshivam93.vns@gmail.com | Gurgaon, India

PROFESSIONAL SUMMARY

Solutions Engineer with 3+ years of experience building scalable full-stack web applications for enterprise clients. Specializes in Java/Spring Boot REST APIs, MySQL and Oracle database management, and Angular front-end development. Demonstrated career progression from Trainee to Solutions Engineer at Ascent, with a strong track record of delivering features end-to-end, improving system performance, and collaborating across Agile teams.

TECHNICAL SKILLS

Languages	Java (Core, Advanced, Java 8 Streams/Lambdas), JavaScript, SQL
Frameworks	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Angular
Databases	MySQL, Oracle — schema design, query optimization, indexing
Tools & Infra	Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, Jhipster
Methodologies	Agile/Scrum, Code Reviews, REST API Design, Bootstrap, HTML5, CSS3

PROFESSIONAL EXPERIENCE

Ascent Risk & Resilience

Domain: Enterprise Software Solutions | Gurgaon, India

Solutions Engineer *Jul 2025 – Present*

- Leading end-to-end development of RESTful APIs using Java and Spring Boot for enterprise-grade client applications.
- Designed and optimized complex MySQL and Oracle database schemas, reducing query execution time by up to 30% through indexing and query restructuring.
- Mentored junior developers through structured code reviews, establishing team-wide coding standards and best practices.
- Led feature releases with zero rollback incidents by implementing disciplined staging, QA collaboration, and feature-flag management.
- Collaborated with cross-functional teams to architect scalable backend modules consumed by Angular front-end interfaces.

Software Engineer I *Jul 2024 – Jun 2025*

- Owned full-cycle feature development — built core modules including data management, workflow automation, and reporting dashboards.
- Reduced P95 API latency by ~25% through connection pool tuning, N+1 query elimination, and JPA fetch strategy optimization.
- Developed and maintained Angular front-end components, integrating them seamlessly with Spring Boot REST APIs.
- Delivered 10+ feature releases across enterprise environments through Agile sprints, QA collaboration, and rigorous testing.

- Performed database schema migrations and ensured data integrity across MySQL and Oracle environments.

Junior Software Engineer *Jul 2023 – Jun 2024*

- Built and maintained RESTful API endpoints for document management, notification systems, and workflow features.
- Improved average API response time by ~20% through query profiling and reduction of redundant database calls.
- Developed responsive Angular interfaces and integrated them with backend REST APIs.
- Collaborated with QA and UAT teams across multiple release cycles; contributed to defect resolution and go-live activities.
- Participated in Agile sprints, daily standups, and code reviews — delivered tasks on time across all quarters.

Trainee Engineer *Jan 2023 – Jun 2023*

- Built internal tooling using Spring Boot and REST APIs; assisted senior engineers with API testing via Postman.
- Gained hands-on experience with Spring MVC, Hibernate, Ang, and Git-based version control through structured mentorship.

ICICI Bank Ltd

Branch Sales Manager – Deputy Manager | Delhi-NCR

Branch Sales Manager – Deputy Manager *Jun 2019 – May 2022*

- Managed client relationships and business development across Wealth, Retail, and DMA channels.
- Utilized CRM software to track customer relationships, improving retention and satisfaction metrics.
- Handled data analysis and reporting using Excel and PowerPoint to support strategic decisions.

PROJECTS

Sticky Notes Library *Angular, PrimeNG, Quill | npmjs.com/package/sticky-notes-lib*

- Published an open-source Angular component on npm for rich-text notes linked to any page or record.
- Supports view-only mode, customizable labels and a configurable REST service layer.

Duplicate Check Annotation *Spring Boot, AOP, JPA | GitHub*

- Built a reusable library enforcing entity-level uniqueness via @CheckDuplicateEntity and @UniqueField.
- Runs on every repository save; handles composite, nested and collection fields on Spring Boot 2 and 3.

JHipster Entity Generator *Java, JHipster, JDL*

- Automated entity generation from JDL, cutting the effort from ~4 hours of manual work to ~2 seconds.
- Re-running on an updated JDL preserves existing custom code changes instead of overwriting them.

EDUCATION

MBA – Marketing & Finance | School of Management Sciences, Varanasi
2017 – 2019

B.Tech – Electronics & Communication Engineering | Kashi Institute of Technology, Varanasi
2010 – 2014

CERTIFICATIONS

- Java Full Stack Development – Ducat India
